September 4, 2018

Dear Property Owner,

PNM is planning to rebuild an existing transmission line that connects with the PNM West Mesa Switching Station. The switching station is located south and east of the intersection of Ouray Road NW and Unser Boulevard NW.

As a property owner in the vicinity of the Ladera Business Park, we would like to invite you to an informational meeting regarding the project. The meeting will be held on Wednesday, September 12, 2018 from 6:00 p.m. until 7:00 p.m. in the cafeteria at Horizon Academy West, 3021 Todos Santos Street NW. We hope you can join us.

If you are not able to attend and would like to remain informed about this project, please send an email referencing this letter to me at Laurie.Moye@pnm.com. Thank you.

Sincerely,

A handwritten signature in cursive script that reads "Laurie Moye".

September 26, 2018

Dear Property Owner,

PNM is planning to rebuild and double-circuit an existing transmission line that connects the PNM West Mesa Switching Station with the Huning Ranch Switching Station in Los Lunas, NM. West Mesa Switching Station is located south and east of the intersection of Ouray Road NW and Unser Boulevard NW. The line traverses Ladera Business Park and is within the transmission corridor west of Unser Boulevard NW.

As a property owner in the project area, we would like to invite you to an informational meeting regarding the project. The meeting will be held on Tuesday, October 9, 2018 from 6:00 p.m. until 7:30 p.m. in the cafeteria at Horizon Academy West, 3021 Todos Santos Street NW. We hope you can join us.

If you are not able to attend and would like to remain informed about this project, please send an email referencing this letter to me at Laurie.Moye@pnm.com. Thank you.

Sincerely,

A handwritten signature in cursive script that reads "Laurie Moye".

Laurie Moye
Coordinator, Regulatory Project and Public Participation

October 2, 2018

Dear Neighbor,

PNM is planning to rebuild and double-circuit an existing transmission line that connects the PNM West Mesa Switching Station with the Huning Ranch Switching Station in Los Lunas, NM. The line will be located west of 118th Street SW.

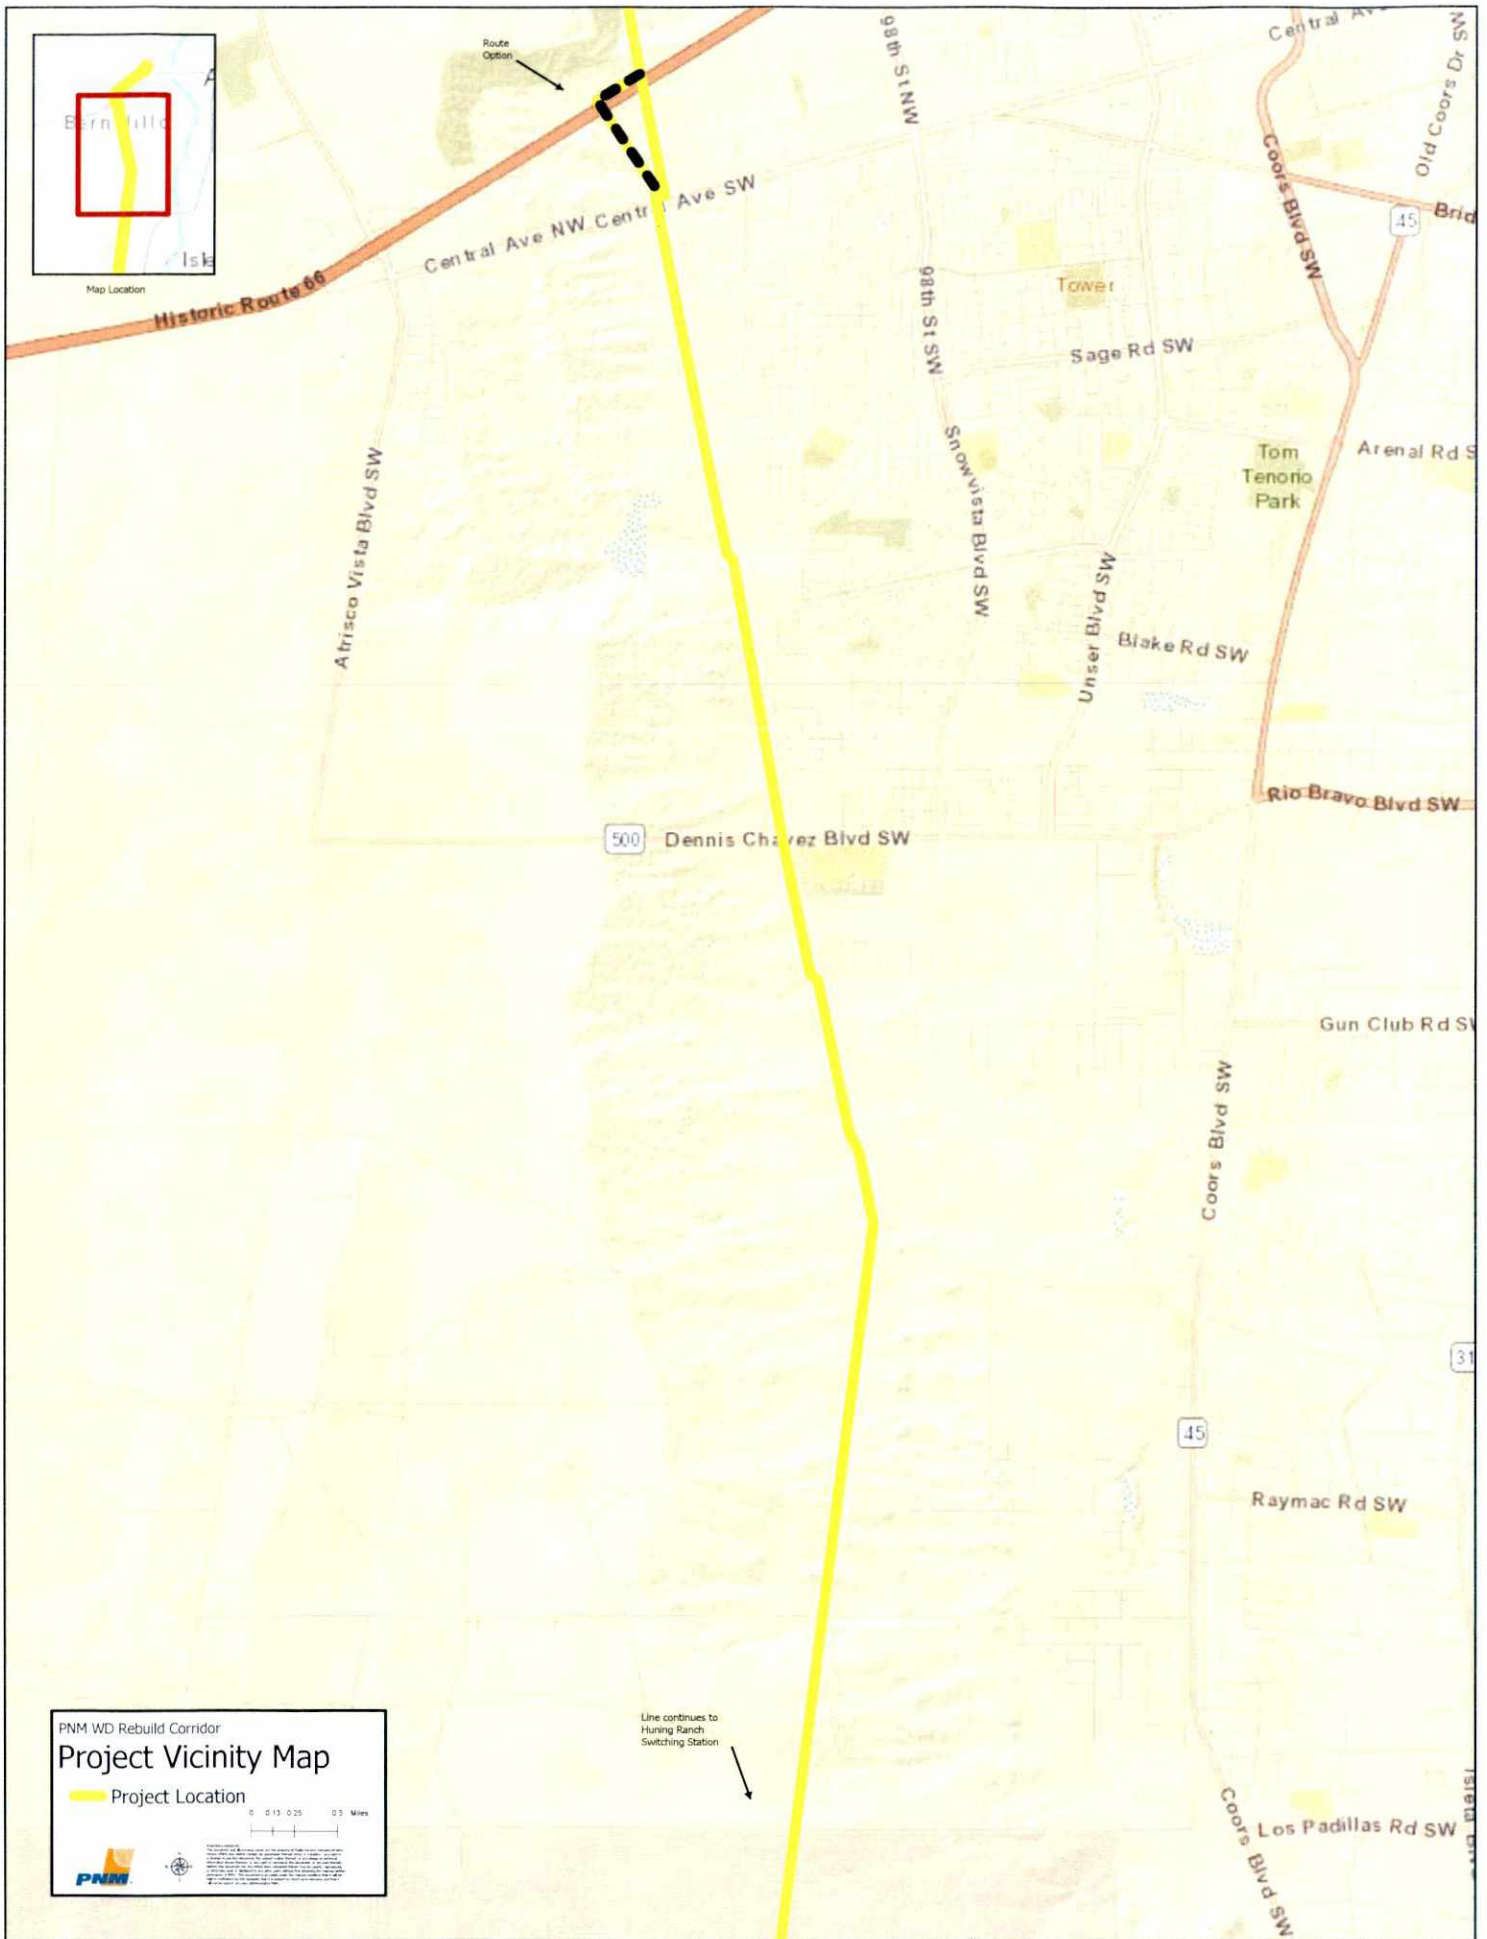

As a property owner in the project area, we would like to invite you to an informational meeting regarding the project. The meeting will be held on Wednesday, October 10, 2018 from 6:00 p.m. until 7:30 p.m. in the main cafeteria at Atrisco Heritage High School, 10800 Dennis Chavez Blvd. SW. We hope you can join us.

If you are not able to attend and would like to remain informed about this project, please send an email referencing this letter to me at Laurie.Moye@pnm.com. Thank you.

Sincerely,

A handwritten signature in blue ink that reads "Laurie Moye".

Laurie Moye
Coordinator, Regulatory Project and Public Participation

Hello Laurie,

I contacted the Sheriff's substation and they don't have a screen for your PowerPoint. You'll have to bring it.

See you next week

Roberto Roibal

Roberto,

Does the location allow me to show a PowerPoint? I can bring computer, projector and extension cords but is there a surface I can show it on? Laurie

Hello Laurie,

I'll put you on the agenda. Will 15 minutes be enough?

See you September 13th, 6:30pm at the Sheriff's substation.

Good morning Laurie.

I am forwarding your email request to our coalition vice-president, Roberto Roibal, so that he can place your topic on the upcoming South Valley Coalition of Neighborhood Associations (SVCNA) meeting in September.

I will be out of town on the date of our next meeting which is: Thursday evening, 13 September.

Our meeting details are listed below:

Thanks for contacting us about the upcoming project.

Regards,

Rod

Rod,

I have left messages on your home phone and I believe your cell regarding a PNM project to rebuild an existing high voltage transmission line on the west side of Albuquerque west of 118th Street. We would like to make a presentation at your next coalition meeting. Please let me know if it is possible to be on your agenda! I look forward to hearing from you.

Regards,

Laurie

South Valley Coalition Meeting
September 13, 2018

Laurie gave a brief 15-minute presentation on the WD2 Rebuild Project. She referenced a photo of the existing line along 118th Street SW and showed the illustration of the proposed double-circuit structure type.

Afterward, the attendees asked questions and Laurie provided answers:

Is this near Coors?

No it is west of Coors.

Is it connected to the new peaking plant in Las Lunas?

Yes, that is the existing WD line.

Will the project affect traffic?

No, we will be out of the way - it will be on the west side of 118th St. PNM will coordinate with police on this.

Is it in the existing corridor?

We are acquiring new easement. There is an existing gas line and a water line so we will be located further west. Environmental analysis will be done.

How long to tear down the old line?

Approximately 4 months.

Where was the photo you showed taken?

Near the 118th St and Dennis Chavez Blvd intersection stoplight.

Did you find any archaeological sites? Roberto (chairman) knows there are sites in the area.

No. PNM environmental staff and contractors are addressing this. Told story about Los Horizon substation. PNM takes archaeological protection very seriously.

Will it go through Pajarito Mesa?

The line is below the mesa to the east.

At the bottom of the escarpment?

Yes.

You will be paralleling the water and gas lines on the east?

No, on the west.

Where was the water going? Santolina?

No, these are older lines.

Is this land grant property?

99% is land grant land.

Does it go through Isleta Pueblo?

Yes. They have the ability to tap the line if they choose.

Other development can tap the line, too?

Yes.

Could lead to development?

It could.

Things could build out in that direction, yes?

PNM Permitted Snow Vista Substation and then Anderson Heights development followed.

WD2 115kV Transmission Line Project

The existing WD Line, built in the 1950s, is shown above just east of Pajarito Mesa.

PNM needs to rebuild the existing WD 115kV Transmission Line. Additional electric demand and system reliability needs have increased and the existing facilities are no longer able to handle the demand.

For information about PNM,
visit **PNM.com**

Project Information

- The line begins at West Mesa Switching Station in Albuquerque and ends at Huning Ranch Switching Station in Los Lunas, NM.
- The length of the line is approximately 21 miles.
- Current plans are that the new transmission line will be located in new easement immediately adjacent to the current transmission line.
- The structures are generally steel poles double-circuit design.
- The in-service date is July 2020.

Talk to us.

Jerry,

Thanks for talking with me this morning. I will wait to hear from you today regarding PNM attending the SWAN on October 2. As I said, I will only need 15-20 minutes to present information about the WD2 project. I look forward to hearing from you.

Laurie

**Southwest Alliance of Neighborhoods Meeting
October 2, 2018**

What are PNM's plans for maintaining the access for this project and how will PNM deal with illegal dumping along the line? People also drive around fences.

Laurie – PNM will clean up dumped trash in the existing right-of-way for our crews to be able to do their work. We will talk about these things with the County.

Michelle (Quezada's assistant) Yes, we want to work together with you. We have had some success with double berms.

Laurie – We don't own the land that our easements are on. Yes, we will work together. Often the fences are cut and sometimes even the gates are stolen.

Laurie – Provided information on the upcoming Open House. You are invited to attend. Jerry Gallegos said he would forward the email from Laurie with the Open House information.

Will there be any power outages?

Laurie - No, this will not affect your power.

How close is this line to Atrisco and CNM?

Laurie - We will be moving this line across the street to the west side of 118th Street. We are not touching the big line in the photo.

Darrell Dady asked that Laurie email the Open House notice to him.

Laurie – Yes, I'll send it to you.

**West Side Coalition of Neighborhood Associations (WSCONA) Meeting
October 3, 2018**

Karen – Ladera West Neighborhood Association President

Visited the exit route of the PNM project at the West Mesa station and there is rubble at the cinder block wall that you can see from Bixby St. Is that PNM's wall?

Laurie – No.

Tommy – Tres Volcanes Neighborhood Association President

Those lines run through the neighborhood and one is directly behind me, so the understanding is the WD line will be moved. Do you have the ROW?

Laurie – Yes, we already have it.

Can you fence the line to keep out the 4 wheelers?

Laurie – We don't own the underlying land. Invite you to a conversation with WAHL and AMAFCA.

What about trash dumping? They are 4-wheeling around the poles and dumping trash. Are you willing to put up a fence?

Laurie - Again it's a conversation we can have with AMAFCA and others.

They don't have any money, PNM has the money to get those areas fenced.

Laurie – The neighborhood treats the area as open space. Why are the neighbors dumping? We don't know.

Unknown attendee - Why aren't you undergrounding this? There are 4 lots on Casa Verde where the trees had to be torn down. Trees were under the wires.

Laurie – The lines will arc with tall trees. PNM will top the trees.

Why are trees allowed there in the first place?

Laurie – They are not allowed to be planted in the easement. We have easements and plats should show the easements. In COA approval process, at PNM I am already commenting on these issues of tall trees on landscape plans when I see them.

Jerry Worrell– how to close the gap?

Laurie – In the Electric Facility Plan, corridors are identified as protected. If I have the opportunity to review proposed plans, I always make a comment that there's a transmission line there.

Our houses are built, but as you go further west, it is undeveloped and how to feed PNM more info into the approval process? What about walking under the line and how to come in and have PNM weigh in on the risks of this?

Laurie – Not at risk of walking under the line. Clearances and distances are safe.

Unknown attendee - Will the wires be lower?

Laurie – No – they will have the height taller to address safe code clearances.

Unknown attendee - Will the poles be lighted?

Laurie – No. That is required on poles at 250' or more – these will not be that tall.

Unknown attendee - Ladera West again – more comments about the cinder block wall on Bixby St.

Laurie – I will go out and look at it.

Unknown attendee - Again, why aren't you undergrounding this line?

Laurie – We won't be undergrounding this line. With regards to safety, there is a lower risk with overhead than underground. The cost to underground is 10 times the cost of overhead.

Laurie repeated info about the upcoming Open House.

Clarification about the boundaries of the West Side Coalition of Neighborhood Associations and the Southwest Alliance of Neighborhoods: The WSCONA territory includes everything west of the river. Some people belong to both WSCONA and SWAN and/or South Valley Coalition organizations.

September 26, 2018

Dear Property Owner,

PNM is planning to rebuild and double-circuit an existing transmission line that connects the PNM West Mesa Switching Station with the Huning Ranch Switching Station in Los Lunas, NM. West Mesa Switching Station is located south and east of the intersection of Ouray Road NW and Unser Boulevard NW. The line traverses Ladera Business Park and is within the transmission corridor west of Unser Boulevard NW.

As a property owner in the project area, we would like to invite you to an informational meeting regarding the project. The meeting will be held on Tuesday, October 9, 2018 from 6:00 p.m. until 7:30 p.m. in the cafeteria at Horizon Academy West, 3021 Todos Santos Street NW. We hope you can join us.

If you are not able to attend and would like to remain informed about this project, please send an email referencing this letter to me at Laurie.Moye@pnm.com. Thank you.

Sincerely,

A handwritten signature in blue ink that reads "Laurie Moye".

Laurie Moye
Coordinator, Regulatory Project and Public Participation

WD2 115kV Transmission Line Project

The existing WD Line, built in the 1950s, is shown on the right looking east from Casa Verde Avenue NW.

PNM needs to rebuild the existing WD 115kV Transmission Line. Additional electric demand and system reliability needs have increased and the existing facilities are no longer able to handle the demand.

For information about PNM,
visit **PNM.com**

Project Information

- The line begins at West Mesa Switching Station in Albuquerque and ends at Huning Ranch Switching Station in Los Lunas, NM.
- The length of the line is approximately 12.6 miles in Albuquerque and Bernalillo County.
- Current plans are that the new transmission line will be located in new easement immediately adjacent to the current transmission line.
- The structures are generally steel poles double-circuit design.
- The in-service date is July 2020.

Talk to us.

To: Annie McGibbon
Subject: Re: [External] WD2 115kV Transmission Line Project

Hello Annie, thank you so much for attending our open house the other night. I am working on getting these pictures reduced so that I can email them to you you may get a series of emails from me on Monday with the images but right now they're they're just too large to send. Look forward to working with you on this project. Regards, Laurie

Good Afternoon Laurie,

It was a please meeting you Tuesday evening. When you have a minute, can you send me the before and after renderings for the proposed transmission line.

Thank you,

Annie McGibbon

WD2 115kV Transmission Line Project

The existing WD Line, built in the 1950s, is shown= above just east of Pajarito Mesa.

PNM needs to rebuild the existing WD 115kV Transmission Line. Additional electric demand and system reliability needs have increased and the existing facilities are no longer able to handle the demand.

For information about PNM,
visit **PNM.com**

Project Information

- The line begins at West Mesa Switching Station in Albuquerque and ends at Huning Ranch in Los Lunas, NM.
- The length of the line is approximately 21 miles.
- Current plans are that the new transmission line will be located in new easement immediately adjacent to the current transmission line.
- The structures are generally steel poles double-circuit design.
- The in-service date is September 2020.

Talk to us.
